SUMMARY

I am a Microsoft Certified Solutions Associate, Dynamics 365 CE Consultant seeking a competitive and challenging environment where I can establish an enjoyable career to myself. Started as Microsoft Dynamics CRM Technical Consultant, learned and worked with experinced and certified consultants.

WORK EXPERIENCE

Senior Power Platform Developer

TraxGroup, Cairo,Egypt

Oct 2022 - Current

- Design, develop, and deploy innovative solutions using Microsoft Power Platform components (Power Apps, Power Automate, and Power BI) to streamline operations and enhance business efficiency.
- Lead and manage the development team, overseeing project lifecycles from conception through to deployment, ensuring timely delivery and adherence to quality standards.
- Conduct detailed requirements analysis with stakeholders to understand and address business needs, translating these into actionable and scalable Power Platform solutions.
- Integrate Power Platform applications with existing systems and business workflows, utilizing Dynamics 365, Azure, and Office 365 to create cohesive and robust environments.
- Provide mentorship and support to junior developers, promoting best practices in code development, maintenance, and security across the team.
- Stay abreast of the latest updates and features within the Power Platform ecosystem, evaluating and advocating for the adoption of new technologies that can drive business value.
- Collaborate with cross-functional teams to ensure solutions meet business goals and user needs, including troubleshooting and providing ongoing support after implementation.
- Prepare and deliver comprehensive documentation and training to users, facilitating a smooth transition and fostering a technology-driven culture within the organization.
